◆ Meets standards for Cool Roof colors as required by the Cool Roof Rating Council.

● These numbers are the tested reflectance values used in determining Cool Roof compliance.

These colors may also qualify your roofing materials for LEED® Heat Island Effect credit.

* Flat StylWall (26 ga.) Fluted StylWall (24 ga.)

** All trims are available in 26 ga.

For color, gauges, or color/panel combinations not shown, additional charges apply and a minimum order is required.
